Sauder Education recommends selecting a contrasting laminate color to avoid a mismatch with a natural wood finish. A woodgrain laminate will never exactly match a natural wood finish due to variations or irregularities in color, grain, and texture of the natural product. This chart is to be used as a guide only in cases when the customer is aware that an exact match is not possible.

If woodgrain laminates are desired, these are the closest coordinating laminates to our Sauder Education wood finishes. Wood finishes are not custom matched to laminates and Sauder Education is not responsible for color or grain matching.
